SKILLS

HTML/CSS, Sass, JavaScript, React, MongoDB, Express, Typescript, Node, Git and GitHub.

EXPERIENCE

Full-Stack Web Developer (Contract)

Bridge360 | June 2022 – December 2022

- Developed and maintained web applications using the MERN stack (MongoDB, Express, React, and Node.js).
- Contributed to the development of a cloud-based platform, including the creation of RESTful APIs and the integration of third-party services.
- Exemplified a proactive role in conducting comprehensive code reviews, offering insightful feedback to elevate code quality and team efficacy.
- Provide adept troubleshooting and debugging support across development and production environments, ensuring optimal application performance.

PROJECTS

Jobify - Full-Stack Job Tracking Application

JUNE 2022

- Developed a Job Tracking App that lets users keep track of jobs applied.
- Implemented React Hooks, Async/Await, React Router 6, Axios.
- Implemented a robust JWT-based authentication and authorization system fortifying the applications security framework.

E-Commerce API - Robust RESTful API for E-Commerce

MAY 2022

- Developed a robust E-Commerce API using Node and Express laying foundation for seamless online retail options.
- Implemented JWT for authentication and authorization, bolstering data privacy and access control.
- Deployed API on Heroku.
